

Government subsidized program for German exporters German Energy Solutions Initiative – AHK-Trade Missions

Dear reader,

We would like to inform you about a program of business trips, which could fit to your company and your efforts for internationalization. The AHK-(German Chambers of Commerce) Trade Missions are business trips of the Energy Solutions Initiative and usually last 4-5 working days.

SCHEDULE

- **1st day:** The German Chamber of Commerce organizes a **dinner to brief the participants** on the upcoming days and about business habits in the foreign market.
- **2nd day: A Business Conference takes place.** The participating German companies have the opportunity to present their company to an audience of potential foreign business partners from industry, politics, and associations. In addition, there will be opportunities to network during the day.
- **3rd – 4th day:** The Chamber organizes **B2B meetings** for the German delegation with potential business partners and clients. Beforehand, you can indicate your preferences and expectations for establishing business contacts.

FEES

The business trips and services (i.e. match making, conference organization) provided by the Chambers of Commerce are funded by the Federal Ministry for Economic Affairs and Energy in Germany. Participants' costs are limited to travel, accommodation and food as well as to a registration fee of 250.00 EUR-1,250.00 EUR depending on the size and turnover of the respective company. You can receive an early bird discount of 40 percent if you complete your registrations a minimum of 12 weeks prior to the AHK-Trade Mission.

REGISTRATION & ADMISSION

If you want to register for an event, please fill out the registration form on the respective webpage. Please note that the registration form has to come from a German company (German company name, address, signature and/or stamp from Germany. The data of the contact person can come from another country). The Chamber will decide if your company is eligible for the program. A reason to deny your participation is for example if the Chamber does not see a market potential for your company and/or solutions. Once we get a positive feedback, we will send you further information, along with the request to pay the registration fee. After we have received your payment, we will confirm your participation.

Application forms and further documents are only available in German language.

If you want to receive more information about the market potential for your company, it is also possible to contact the Chamber of Commerce for a personal consultation. Please let us know if you want to have a phone call with the Chamber, and we will set you in touch.
